

Dear ABS Friend,

We're all aware of the caliber of an ABS education: it nurtures its students to be the best and most ambitious citizens they can possibly be. And yet, how many young and talented Jordanians have equaled access to a world class education such as the one ABS offers? Let's face it, many underprivileged yet highly gifted children in Jordan and the world over are deprived of a chance at a multi-disciplinary education, simply due to the socioeconomic circumstances they are born into.

If there's one thing ABS aspires to instill among its students, it is that with great privilege comes great responsibility. Never has the time been more timely to tune up our civic responsibilities in the fight against poverty and inequality. One way to fulfill this duty is ***by sponsoring a gifted student to attend ABS.***

By supporting the ABS scholarship program, you can change a young, wide-eyed child's life by instilling in him or her values of generosity, social responsibility and above all -- the sheer ability to dream hope and aspire to greater heights. The child you sponsor today might become Jordan's most brilliant scientist or most inspiring entrepreneur tomorrow!

In a world plagued with injustice, many of us are looking for ways to make a difference. One of the most noble things anyone can do is cease the opportunity to make someone's dream a reality. Now is your chance to pay it forward: to sow a single seed of goodness, in the hopes of reaping the fruits of the greater good for all.

If you would like to support the ABS Scholarship Program, please don't hesitate to contact me today. Remember, there is no such thing as "too little an amount" -- every penny counts in the ragged yet hopeful road of dreams come true.

Thank you, always, for your kindness and consideration.

Yours Sincerely,

Manal El Sharif (Mrs.)
Development and Fundraising Director
